

PLACE IT PERFECTLY

A

WASTE

SEGREGATION

GAME

Ideally every place where we discard waste should have three bins.

GREEN - for wet waste, which comes from the kitchen/cooking/food, goes to one bin.

BLUE - Dry recyclable waste such as newspapers, cardboard, packing plastics, bottles, cans, etc., should go to a different bin.

RED - Reject waste, which does not belong to the above two categories, including bio-waste like diapers and bandages should go into a third bin.

Show that you know how to properly sort your recyclables, household and hazardous waste by matching up the item with where they should go.
