

**Response to queries raised by M/S Yashi Consulting Services Pvt.
Ltd. via their letter nos YCSPL/2017/PMIDC/MP/2017**

The tender for creation of GIS based master plan for sixteen AMRUT cities primarily deals with the activity of creation of Master Plans on GIS Platform and relating activities. The experience of utility mapping, as stated by the bidder in his representation is just one of the skill sets required for the master planning exercise. The requested changes cannot be effected without compromising the quality of the deliverables expected under the project.

It is clarified that the experience of *formulation of Master Plan on GIS platform for a city having population not less than 5 lacs* is required as per pre-qualification criteria mentioned at Point 5 under Section 9.2 of the RFP document.

Hence, the change requested are not admissible. The original clause in the RFP shall prevail. Further, the last date of submission of bid shall also remain same i.e. 15.12.2017 as informed earlier.
