for Punjab

Date: 19th February 2018

Subject: - Corrigendum II for RFP for Selection of System Integrator for Online Building Plan Management System for Punjab

With reference to the above mentioned subject, the original clause of the RFP is replaced with the revised clause as mentioned below:

| Sl. No. | Page No. in RFP | Original Clause | Revised Clause |
|---------|-----------------|---|---|
| 1 | 24, 25 | <p>Online registration of Architects: The proposed system should be fully automated and should not have any manual intervention after uploading the file till generation of scrutiny report. There should, however, be a workflow to manage human error in data entry. This module should enable Architects / Engineers / Supervisors to register with any particular Municipal Council Online. Already registered users (e.g. architects) details to be incorporated in the system with current status and validity. Necessary supporting documents should be submitted online. System should enable Government official to fix meeting for original document verification. All steps during processing of file to be intimated to the applicant via email and SMS (existing email gateway of Department of Governance Reforms is to be used. Approximately 1000 staff members of ULBs would be receiving emails/ SMS. The bidder is expected to factor variation of 30%. The client will procure SMS gateway). Online fee payment option to be available for payment of fees. The bidder should provide a system that allows for digital signature feature to ensure web based signage of documents (Procurement of digital</p> | <p>Online registration of Architects: The proposed system should be fully automated and should not have any manual intervention after uploading the file till generation of scrutiny report.
