Dear Sir,

We most humbly seek clarification regarding a confusion in the latest tender document uploaded on Punjab e-procurement website:

1. Refer Annexure-1 Clause 6 Technical evaluation (Pg # 16 & 17): In this clause demonstration of 10 sqkm area is to be acquired and processed by technically qualified bidder and only those bidders who successfully complete this task, their financial bids shall be opened.
2. However, as per the pre-bid clarifications (refer Point # 6 on pg # 40): It is mentioned, that this clause has been dropped and table has been modified.

So therefore in view of the above, it is not clear, if technical qualification would be done after successful benchmark of 10 sqkm or this qualification test has been dropped in its entirety.

We shall be obliged, if the same can be explicitly clarified.

Thanks & best regards,

to Achyut

In this clause by mistake 8 sq km was mentioned in the tender at para 1.5 which has been modified to 10 sq km. Thus 10 sq km test stands.

**Ref:** 1. Tender No. 39/01/2018-UP/Drone Images  
2. Your Email reply dated 28 Dec 2018

Dear Sir,

With reference to above mentioned tender, we wish to state few important points regarding the relevant DGCA Policy guidelines as below.

As per DGCA Policy guidelines and MOD Aerial Survey Policy 2006 and Public Notice on DGCA Website for use of Remotely Piloted Aircraft System (RPAS) for civil applications updated on 1<sup>st</sup> Dec. 2018, DGCA flying permission is a pre-requisite and for this requisite application needs to be submitted to Directorate of Regulations and Information (DRI) on award of contract. This permission normally takes 10-16 weeks based on flight plan as per specific AoI of the project to be submitted along with application.

Considering this we request the following:

1. 10-16 weeks' time is allowed for this permission.
2. KML of AoI is released by PMIDC now so that equipment and team movement is adequately considered with correct cost implications in the proposal.
3. Instead of 10 sq. Km. pilot in Punjab for bids technical evaluation, PMIDC allows evaluation of similar work already executed by bidder.

We wish to emphasize upon the project being taken up in compliance to above noted Government of India Policy guidelines.

We request your kind consideration and confirmation at your earliest.

Thanking you and assuring you the best of our services at all times.

Yours Sincerely,

**For IIC Technologies Limited**

Dear Sir,

Please refer your letter forwarded through this mail. Point wise reply is submitted for your reference and consideration

1. This office has gone through the guide lines and has considered to allow 10 days for permission from DGCA for flying.
2. Earlier also it was stated that built up area of all the 167 ULB's is required to be flown. If required, we can forward you the list of ULB's. KML of AOI will be given to short listed bidder.
3. 10 Sq km area has to be flown fresh in Punjab. It was clarified earlier also.

Regards
